

DPD-0816-59
Copy 9 of 9
30 January 1959

Dear Mr. Johnson:

Your letter of January 21, 1959 regarding use of certain tooling has been referred to this office for action.

The resulting tooling from our original program may be used by you in producing the U-2B should an order for same materialize. The use of this tooling, however, is subject to the following stipulations:

- (1) Retention of such tooling as required to maintain spares and furnish repair services for the Project and FOG.
- (2) Retention of tooling required to modify our vehicles to utilize a 5-75 engine should such prove feasible.

The use of the original tooling for the current production of 5 FOG vehicles is authorized in Contract SP-1919.

Sincerely yours,

Dan
